

CATV Joint Enclosure (Mini Box)

The CATV Joint Enclosure (Mini Box) is designed to provide a secure and waterproof solution for joining up to 12 optical fiber cables. This mini box is an ideal solution for applications where large cylindrical joint enclosures are not feasible, such as overhead OFC, CATV, local area networks, internet connections and fiber-to-the-home.

Technical Specifications

- Moulding material: ABS plastic.
- Hardware: Brass Bashes, screws, nuts, etc. of standard best quality.
- 4 – 12 mm cable up to 12 Fiber can be accommodated.
- Water-proof & air-tight joint closure.

Dimensions

Outer Dimension	20cm x 14cm x 3cm
No of Ports	2/3/4
Maximum Capacity	12 Fibers

KEY FEATURES

- Can be used as a termination box.
- Suitable for OFC cable up to 12 Fiber.
- Compact and lightweight design.
- Easy to use.
- Perfectly waterproof.

KEY APPLICATIONS

- Telecommunication
- Local area network
- Internet connection
- CATV
- Fiber-to-the-home

The CATV Joint Enclosure (Mini Box) is a reliable and versatile solution for securing and protecting optical fiber connections in a compact and lightweight design. With its waterproof and airtight joint closure, it ensures the longevity of the cables and delivers uninterrupted data transmission.
