We practice what we believe in

Our beliefs in quality, integrity, equality and sustainability are deep rooted and reflect in our corporate culture.

Mission

To be a customer centric organization and enabler for society through economic and social empowerment.

Values

Savitri Group infuses Integrity, Diversity, Sustainability and Philanthropy in every aspect of its business. People are our foremost asset which encourages us to treat everyone equally and individually.

Vision

To serve the industry with value proposition and innovation.

Unleashing the talent ON WORK, OFF WORK

Our priority is to strategize our people and business in a way to equip them with Technology and Skill.

Discover & Create Yourself

Be Intrapreneur

Think Happy

Driving Digital Transformation

Providing comprehensive T&M (Test and Measurement) and Technology Solutions for Communication, IT, Electrical, and Telecom Networks.

These solutions help users ensure the quality and reliability of communication systems and networks, while optimizing performance and troubleshooting potential issues. They also ensure that the network and system meet user requirements and resolve any problems that may arise.

Rejuvenating Technology

We offer a single-window solution for the Service, Repair, and, Calibration, of Test & Measurement Instruments and Machines.

This includes repairing malfunctioning equipment and calibrating it to ensure optimal performance within specified tolerances. We are committed to delivering top-quality repair and calibration services to keep your telecommunication equipment performing at its best.

Powering Lives & the Future of Connectivity

We offer Rental Services for a wide range of Test & Measurement Instruments and Telecom Solutions, available for both Short-Term and Long-Term needs.

Our services provide a cost-effective solution with the flexibility to update or upgrade equipment without the risk of maintenance, breakdowns, or repairs. This approach eliminates concerns about obsolescence, reduces operating costs, and offers the freedom to switch between brands and the latest models, making it a highly efficient option for businesses needing access to the necessary technology for special projects, events, or temporary capacity expansion.

Transforming Ideas from Blueprints to Real

Providing Turnkey Project Solutions for Technology, Communication, IT, Electrical, and Civil Construction.

We offer complete project solutions that enable organizations to implement and manage new systems conveniently and efficiently. Our comprehensive project management approach encompasses the design, development, implementation, and maintenance of systems for our clients. We are committed to being a single solution provider, delivering a fully functional system that is ready for use upon completion.

Monitoring & Strengthening Network Health

Providing 24/7 Maintenance Services for Telecom and OFC Networks.

Our maintenance services play a crucial role in ensuring the reliability and performance of telecom and OFC networks. They help identify and resolve issues while optimizing network performance. Our offerings include preventive maintenance, corrective maintenance, performance optimization, network monitoring, and workforce deployment, among others.

Driving Revolutionary Innovation for a Sustainable Future

We specialize in building OFC Networks, FTTH Networks, IBS, CCTV, Surveillance Systems, and Tower Infrastructure.

To enhance our clients' experience, we adhere to a structured process that includes planning and designing, procurement, deployment, testing and commissioning, and maintenance. By focusing on our clients' needs and preferences and continuously striving to improve their experience, Savitri fosters strong and long-lasting relationships with our clients.

Paving the Way for Innovation

Savitri Telecom is a renowned manufacturer of top-quality Structured Cabling Solutions, including OFC, Copper, RF, and Networking Products that facilitate the efficient and organized distribution of Voice, Data, and Video Signals.

We provide customized Storage Solutions that address the unique needs of each client, helping them optimize and manage their systems more effectively.

Test and Measurement

Fiber Test

- ◆ OTDR (Optical Time-Domain Reflectometer)
- ◆ Optical Power Meter
- ◆ Optical Laser Source
- ◆ Optical Return Loss Meter
- ◆ CD/PMD Tester
- ◆ Optical Spectrum Analyzer
- ◆ Fiber Inspection and Cleaning
- ◆ Fiber Identifier
- ◆ Visual Fault Locator
- ◆ Remote Fiber Monitoring
- ◆ MPO Tester
- ◆ Attenuator
- ◆ Optical Loss Test Set

Network Test & Certification

- ◆ Network Performance Monitoring Tool
- ◆ Transport/Ethernet
- ◆ DOCSIS 3.1 Test
- ◆ Copper, DSL, WiFi & Broadband Test
- ◆ Protocol Analyzer
- ◆ Asset & Data Management

Wireless Test

- ◆ Antenna Alignment & Monitoring
- ◆ RF Test

Timing & Synchronization

Synchronization Systems

- ◆ Timing Accessories
- ◆ Time Scale System
- ◆ Management & Monitoring
- ◆ Modular Synchronization System
- ◆ GPS Instruments
- ◆ 1U Distribution Amplifier
- ◆ Enterprise Network Time Servers
- ◆ Carrier Grade NTP & PTP IEEE 1588 Grandmasters
- ◆ Embedded Atomic Clocks
- ◆ GNSS Disciplined Oscillators (GNSSDO)
- ◆ System Clocks & Frequency References

Marker and Locator

- ◆ Electronic Route/Marker Locator

Structured Cabling

Fiber Optic Cable Assemblies

- ◆ Patch Cords
- ◆ Pigtails
- ◆ Connectors
- ◆ Adaptors
- ◆ Attenuators

Fiber Optic Jointing Kit

Cabinets, Panels & Enclosures

Fiber Optic Termination Unit

Fiber Optic Splitters

Electrical Cable Accessories

Fiber Optic Accessories & Consumables
